

**HONORABLE BOARD OF LEGISLATORS  
THE COUNTY OF WESTCHESTER, NEW YORK**

Your Committee is in receipt of an amended bond act ("Amended Bond Act") in the total amount of \$2,225,000 which includes \$225,000 in previously authorized bonds of the County of Westchester ("County"), to finance Capital Project RGE04 – Georges Island Infrastructure ("RGE04").

The Amended Bond Act, which was prepared by the law firm Hawkins Delafield & Wood, LLP, is required to fund the cost of design, construction and construction management associated with water and electric upgrades at George's Island Park in Montrose.

The Department of Parks, Recreation and Conservation (the "Department") has advised that George's Island Park is one of the few access points available to the public for boat launching on the Hudson River. The park also contains two large group picnic areas, pavilions and restrooms. These areas are very popular with County residents and provide the Department with revenue. The supporting electric and water service is original to the park, is in poor condition and requires upgrading and replacement. Work will include replacement of the existing potable water line from the main entrance to the maintenance area, and secondary feeds to the comfort stations and picnic areas; replacement of the primary electric line into the Park from the entrance to the maintenance facility, and secondary to the picnic areas and comfort stations, including data/IT upgrades.

Design is currently underway and is anticipated to take three (3) months to be completed and is being performed by consultants. Construction is estimated to take twelve (12) months and will begin after award and execution of the construction contracts.

It should be noted that your Honorable Board has previously authorized the County to issue bonds to finance a prior component of RGE04, as follows: Bond Act No. 94-2017 in the amount of \$225,000 which financed design services associated with this project. These bonds have not been sold. Accordingly, it is now requested that Bond Act No. 94-2017 be amended to increase the total amount authorized by \$2,000,000, for a total authorized amount, as amended, of \$2,225,000, to revise the scope of Bond Act No. 94-2017 to include work associated with the construction phase of the project and to increase the period of probable usefulness of said bonds.

The Planning Department has reviewed the above referenced capital project (Fact Sheet Unique ID: 1607) with respect to the State Environmental Quality Review Act and its implementing regulations, 6 NYCRR Part 617 (SEQR). The project was previously reviewed by your Honorable Board in connection with capital project RGE03-George's Island Site Work. The two projects were collectively classified as a Type I action under SEQR. In accordance with SEQR, a Full Environmental Assessment Form was prepared and, on May 21, 2018, a Negative Declaration was issued by your Honorable Board via Resolution 75-2018. As such, no further environmental review is required for this capital project.

It should be noted that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to adopt the Amended Bond Act. Your Committee recommends the adoption of the proposed Amended Bond Act.
