Westchester County Board of Legislators
800 Michaelian Office Building
White Plains, New York 10601

Dear Honorable Members of the Board of Legislators:

Transmitted herewith for your review and approval is an amended Bond Act ("Amended Bond Act") which, if adopted, would authorize the County of Westchester ("County") to issue additional bonds in the amount of \$1,250,000 to finance the following capital project:

SPC11 – Port Chester Wastewater Treatment Plant – Roof Replacements ("SPC11").

The Amended Bond Act, in the total amount of \$3,675,000 which includes \$2,425,000 in previously authorized bonds of the County, would finance the cost of additional design, construction management and construction costs for the replacement of the roofs of various buildings at the County's Port Chester Wastewater Treatment Plant, including the Administration/Sludge Processing Building and the Sludge Thickening Building.

The Department of Environmental Facilities ("Department") has advised that the additional financing is required due to the latest consultant construction cost estimate, which takes into account the updated number of roof penetrations and roof curbs required for the electrical and HVAC equipment upgrade project which will be performed under the same construction contract as the roof replacement.

Design is currently being undertaken by a consultant and is expected to be completed by the third quarter of 2021. Construction will be combined with work previously approved work under capital projects SPC03 and SPC09 to replace the electrical and HVAC equipment at the plant. The combined construction duration for the overall project is estimated to take twenty-four months to complete and will begin after award and execution of the construction contracts.

It should be noted that your Honorable Board has previously authorized the County to issue bonds in connection with SPC11, as indicated in the annexed fact sheet and as follows: Bond Act No. 11-2020 in the amount of \$2,425,000 which financed design, construction management and construction costs in connection with SPC11. These bonds have not been sold. Accordingly, it is now requested that Bond Act No. 11-2020 be amended to increase the total amount authorized by \$1,250,000, for a total authorized amount, as amended, of \$3,675,000.

Based on the importance of this project to the County, favorable action on the proposed Amended Bond Act is respectfully requested.

**HONORABLE BOARD OF LEGISLATORS
THE COUNTY OF WESTCHESTER, NEW YORK**

Your Committee is in receipt of an amended bond act (“Amended Bond Act”) in the total amount of \$3,675,000 which includes \$2,425,000 in previously authorized bonds of the County of Westchester (“County”) to finance Capital Project SPC11 – Port Chester Wastewater Treatment Plant – Roof Replacements (“SPC11”). The Amended Bond Act, which was prepared by the law firm Norton Rose Fulbright, is required to finance the cost of additional design, construction management and construction costs for the replacement of the roofs of various buildings at the County’s Port Chester Wastewater Treatment Plant, including the Administration/Sludge Processing Building and the Sludge Thickening Building.

The Department of Environmental Facilities (“Department”) has advised that the additional financing is required due to the latest consultant construction cost estimate, which takes into account the updated number of roof penetrations and roof curbs required for the electrical and HVAC equipment upgrade project which will be performed under the same construction contract as the roof replacement.

Design is currently being undertaken by a consultant and is expected to be completed by the third quarter of 2021. Construction will be combined with work previously approved work under capital projects SPC03 and SPC09 to replace the electrical and HVAC equipment at the plant. The combined construction duration for the overall project is estimated to take twenty-four months to complete and will begin after award and execution of the construction contracts.

It should be noted that your Honorable Board has previously authorized the County to issue bonds in connection with SPC11, as indicated in the annexed fact sheet and as follows: Bond Act No. 11-2020 in the amount of \$2,425,000 which financed design, construction management and construction costs in connection with SPC11. These bonds have not been sold. Accordingly, it is now requested that Bond Act No. 11-2020 be amended to increase the total amount authorized by \$1,250,000, for a total authorized amount, as amended, of \$3,675,000.

The Planning Department has advised your Committee that based on its review, the above-referenced capital project has been classified as a Type “II” action pursuant to the State Environmental Quality Review Act (“SEQR”) and its implementing regulations, 6 NYCRR Part 617. Therefore, no

further environmental review is required. Your Committee has reviewed the annexed SEQR documentation and concurs with this conclusion.

It should be noted that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to adopt the Amended Bond Act. Your Committee recommends the adoption of the proposed Amended Bond Act.
